The Narrowboat “Peter Pan”

Peter Pan is a 50ft narrowboat with a semi-traditional stern and all home comforts for an extended stay for two to four people.

Starting at the bow, there is an area external to the entry point with seating and lockers.

You step down from there to a **lounge** area with wood floors and a multi-fuel stove.

There is also central heating throughout the boat from a gravity fed system based on the multifuel burner you can see in the picture above.

Looking the other way (from the bow) The kitchen (in boat terms known as the Galley) adjoins the lounge..

The galley has a four-burner stove, separate oven and fridge plus space for all the necessary cooking utensils and groceries you might need to enjoy a good cooking experience on board.

It isn't easy to picture the **bathroom** has a shower, washbasin and pump out toilet.

The necessities – wash hand basin and pump out toilet.

The shower with easy clean panels.

Next there is a **bedroom** with a door for privacy and a fixed double bed. Hanging space is also available here and there is some storage under the bed.

There is a wardrobe, and then stairs leading to....

stairs leading to.... a semi traditional stern with seating. The engine is a Beta Marine diesel.
